## **Chandra Asri Group Affirms Its Commitment to Sustainability with EDGE Advanced Green Building Certificate**

**Jakarta, July 25<sup>th</sup>, 2024** - PT Chandra Asri Pacific Tbk (Chandra Asri Group) has successfully obtained the Green Building EDGE certificate (Excellence in Design for Greater Efficiencies) Advanced from the Green Building Council Indonesia for the Admin Building OPE at the Ciwandan Plant in Cilegon. This achievement underscores the Company's commitment to prioritizing environmentally friendly principles. EDGE Advanced has acknowledged that the OPE Building Admin Building has surpassed basic standards in design efficiency and green building operations, ensuring more efficient use of electricity, water, and materials.

The EDGE Certificate is an internationally standardized green building certification system developed by the International Finance Corporation (IFC), a member of the World Bank Group. The assessment criteria for the Green Building EDGE certification encompass three aspects: energy efficiency, water efficiency, and embodied carbon in materials. These criteria focus on sustainable practices consistently reflected in optimal daily operations of buildings, utilizing renewable energy and selecting materials with minimal environmental impact.

**Phuping Taweearp, ESG & Sustainability Director Chandra Asri Group**, stated, "Chandra Asri Group's achievement in implementing our first Green Building reaffirms our contribution as a Growth Partner in reducing carbon emissions and supporting global initiatives to address climate change. Within our sustainability framework, we have developed a strategy to address ESG-related topics, emphasizing decarbonization, and one of the milestone in this strategy is obtaining a Green Building certificate. In line with our commitment and in harmony with our expansive business development, Chandra Asri Group will continuously to integrate sustainability into our business strategy. This will be concretely implemented by considering Environmental, Social, and Governance (ESG) aspects in every business decision."

The office buildings of Chandra Asri Group have implemented several initiatives including: using electricity from solar panel in warehouse operations. Installing Aluminum Composite Panels on the Administration Building, which contribute to energy efficiency by reducing heat transfer through partial reflection of sunlight and radiation. Selecting building equipment such as faucets, flush toilets, and other devices that have low flow rates or water consumption.
