SECTION-4. FIRST-AID MEASURES

The Health effects below are based upon component health effects consistent with requirement under OSHA hazard communication (29 CFR 1910.1200).

First-Aid Step

| | |
|------------------------------|---|
| Inhalation | : Product fines may cause mechanical irritation |
| Skin Contact | : Product is unlikely to cause irritation at room temperature |
| Eye Contact | : Product fines may cause mechanical irritation |
| Ingestion | : Product is practically non-toxic |
| Sign and Symptoms | : Irritation as noted above |
| Aggravated Medical Condition | : Preexisting eye and respiratory disorder may be aggravated by exposure to product fines |

SECTION-5. FIRE-FIGHTING MEASURES

| | |
|-----------------------------------|---|
| Extinguishing Media | : Use water fog, foam, dry chemical or CO ₂ . |
| Unusual Fire and Explosion Hazard | : Treat as a solid that can burn, molded parts generally burn slowly with a low smoke density and flaming drips under certain conditions can burn with a high smoke |

| | | |
|---|---|--|
| Fire Fighting Procedures and Precaution | : | density Material will not burn unless preheated. Do not enter confined fire space without full bunker gear (helmet with face shield, bunker coats, gloves and rubber boots) including a positive pressure NIOSH approved self-contained breathing apparatus. Cool fire exposed containers with water. |
| Protective Clothing for Fire Fighter | : | Hand gloves, goggles |

SECTION-6. ACCIDENTAL RELEASE MEASURES

| | | |
|----------------------|---|---|
| Small Spill and Leak | : | Pellets on the floor could present a serious slipping problem. Exercise good housekeeping to avoid this hazard. Sweep, shovel or vacuum material into clean containers. |
| Large Spill and Leak | : | Use a shovel to put the material into a convenient waste disposal container do not allow any potentially contaminated water with pellets to entry any waterway, sewer or drain. |

SECTION-7. HANDLING AND STORAGE

| | | |
|---------------------------------|---|---|
| Personal Precautionary Measures | : | Avoid contact with molten material |
| Handling | : | Maintain good housekeeping. Keep away from heat, sparks, open flame or any ignition source. Use with adequate ventilation. After handling, always wash hands thoroughly with soap and water. Spilled pellet may create a slipping hazard. Electrostatic charge may build up during handling. Grounding of equipment is recommended. |
| Storage | : | Store in a dry place with adequate ventilation and away from direct sunlight, excessive heat and strong oxidizers. Keep packaging (container) closed to prevent contamination |

SECTION-8. EXPOSURE CONTROLS / PERSONAL PROTECTION

| | | |
|---------------------------|---|---|
| Control Parameters | : | Although general room ventilation should be adequate in most applications, local exhaust ventilation is recommended for control of airborne dust, fumes and vapors, particularly in confined areas. |
| Respiratory Protection | : | Use NIOSH approved respirator if unable to control airborne dust, fumes and vapors. |
| Eye Protection | : | Wear eye protection (safety glasses, goggles, face-shield) when processing. |
| Skin and Body Protection | : | Wear chemical-resistant gloves, heat protective gloves and protective clothing as well as a face-shield |
| Other Personal Protection | : | Use safety non-slip shoes in area where spills or leaks occur. |

SECTION-9. PHYSICAL AND CHEMICAL PROPERTIES

| | | |
|--|---|---|
| Appearance and Odor | : | 3mm ø Solid, Whitish in color and essentially odorless pellet |
| Organoleptic | : | Tasteless |
